

DISPLAYING YOUR HOUSE NUMBER

Such number shall be a minimum of four (4") inches in height, reflective, and of contrasting color to the mounting surface. The alphabet shall not be utilized to represent a number in word form. All numbers shall be represented using block numeric figures and other numbers that may be confused with the assigned number must be removed.

If the structure is not plainly visible from the street, or it is more than 75 feet from the edge of the street, the number shall also be affixed to a four by four (4"X4") post, or equivalent, a minimum of three (3") feet high next to the driveway leading to the house so that the number is visible from both directions. The alphabet shall not be utilized to represent a number in word form; all numbers shall be represented using block numeric figures.

✓ *Correct Representation on structure:*

Incorrect representation on structure:

- i. If the structure is not plainly visible from the street, or it is more than 75 feet from the edge of the street, the number shall also be affixed to a four by four (4"x4") post, or equivalent, a minimum of three (3') feet high next to the driveway leading to that house *so that the number is visible from both directions*. The alphabet shall not be utilized to represent a number in word form; all numbers shall be represented using block numeric figures. (See example Figure 2).

FIGURE 2 [Side view]

✓ *Correct*

Incorrect →

Remember that the numeral must be posted on two sides of the post so it is visible from both directions.

Note: The house or structure shall still display its number even with a post at the street.
