In case of an emergency do you want to be notified?:		

Dear Resident,

This security check service in no way guarantees that your property will be safe from vandalism or burglary, but merely provides the police department with information on your whereabouts and other pertinent information, should a crime occur. This security check service in no way implies that your home will be checked on a daily basis.

I give the Greenland Police Department the authority to be on my property for the purpose of protecting my property. I authorize the Greenland Police Department to take police action against any person found committing a crime on my property.

I have read and understood the above, and I request that a security check be made of my home. I agree to notify the police department of my return.
